THE WORLD OF TOMORROW

SCOR
The Art & Science of Risk

OUR APPROACH

We help clients to balance growth, efficiency, and profitability by giving them access to off-the-shelf and tailor-made solutions and advising them on strategic choices. Our work is supported by four pillars:

Insurance Expertise & Marketing

- Access to SCOR expertise on risk comprehension
- Global Consumer studies
- Behavioural science studies
- Risk consulting
- Training
- Experience analysis and benchmarking

Data Analytics & Digital Capabilities

- Data management and advanced modelling (including Machine Learning, Optimization, etc.)
- Software engineering
- API delivery
- Infrastructure hosting

Product & Innovation Capabilities

- Off-the-shelf products available
- Development of tailor-made products
- Scouting for the best available technology / ventures
- Access to SCOR network of partners at best market conditions
- Project management

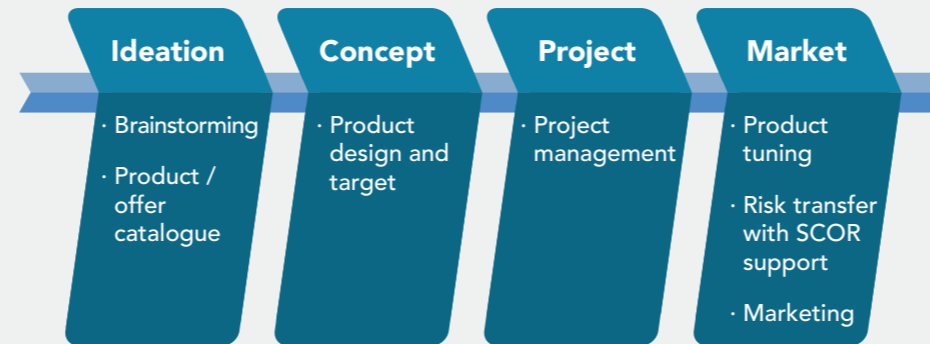

Capital Solutions

- Solutions to optimize the balance sheet or the P&L
- Access to additional third-party capital
- Risk transfer

In addition to providing reinsurance capacity, SCOR can accompany you on your innovation journey and help you realize your ambitions.

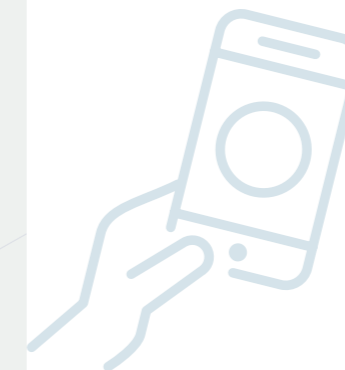

In addition to our six main coverage areas, we can design bespoke solutions according to your needs.

OUR SOLUTIONS

SCOR Smart Credit Solutions: a data-driven digital pricing engine that allows clients to increase trade credit underwriting efficiency and consistency without compromising underwriting quality. Its digital nature allows portfolio performance monitoring in near real-time.

SPOT: a cloud-based, hardcoding-free underwriting platform that makes clients' underwriting and distribution capabilities more efficient and cost-effective. It's fully flexible, swiftly implanted, API integrated and economical due to its low/no touch model.

SCOR's Connected Insurance Initiative (SCii) simplifies the deployment of telematics technology for insurers, helping them monitor the usage of vehicles and assess the risk profile of drivers more effectively. The solution is provided by SCOR in collaboration with DriveQuant.
