- SCOR’s highly diversified portfolio brings stability to its returns, especially in years of heavy nat cat losses (e.g. 2011)
- SCOR’s strategy is to maintain a diversified approach and stay within a 40-60 corridor in which the proportion of Life and P&C can vary in order to actively manage cycles.
2 Capital shield policy for P&C and high diversification both contribute to SCOR’s relentless efforts to minimize its capital needs

SCOR’s best-in-class governance allows for timely and efficient decision making

- **Anticipate**
  - Identification of sovereign debt crisis as early as 11/2008
  - Capital shield operational in 2011 to protect the company and its shareholders from Nat cat losses
  - Creation of the first S.E. in the industry in 2005

- **Carefully assess**
  - In-depth due diligence performed before the TaRe acquisition
  - Decision not to expand in casualty/liability (as planned by SM V1.0) under current market conditions

- **Make adequate decisions at the right time**
  - Subordinated Swiss debt issuance with initial coupon of 5.375% in February 2011 just before the debt market closed
  - Deliberate sale of 27% of equity portfolio in June 2011, before the summer’s market turmoil

- **Follow-up efficiently**
  - Fastest company to release maximum cat loss estimates after the Japanese quake in 2011, with high accuracy
  - Smooth and swift integration of ex-TaRe

- **Take responsibility of actions**
  - Maintain a prudent asset management strategy to protect the Group in the long-term interests of shareholders

- **Amend when necessary**
  - Increase significantly the attachment level of the contingent capital
