SCOR Sweden Re was founded in 1914 and celebrates 100 years of successful Nordic presence in 2014. It is a leader of reinsurance and medical risk assessment in the Nordic life and health insurance markets.

With € 10.9 billion GWP in 2013 and an A+ rating with positive outlook from both S&P's and Fitch*, SCOR is one of the world's largest reinsurance groups. The SCOR group has 39 offices across 5 continents with more than 2,150 employees worldwide and 4,000 clients in over 80 countries.

SCOR is a leading provider of medical risk assessment services. Further to PRIO, we are offering SOLEM, the web based underwriting guideline for adult products. With its SCOR Campus sessions, SCOR provides its clients with training and education programmes in risk assessment and claims management as well as in product development.

* As at 5/9/2014

PRIO

PRIO is a web based underwriting guideline for child disability products, developed by SCOR Sweden Re and adapted for the Nordic insurance market.

The guideline contains more than 400 diseases and disorders including considerations and recommendations tailored for the underwriting of child disability products.

We keep PRIO up to date with the current research in paediatric medicine and based on our clients initiatives, as well as our own, the manual is constantly being developed in co-operation with our medical doctors. PRIO is a practical and easy tool to use in the daily work of managing the issues at both the risk assessment and claims departments.

- Simple and fast search for diseases and disorders*
- ICD codes linked to all diseases*
- Growth curves to help analyse increases in weight and height*
- Company notes*
- Personal notes*
- Prepared for translation to multiple languages*
- Market Leader in Sweden and Norway*
